Product Rationalization – AMERSHIELD®

Dear Valued Customer,

We are writing you to advise you the phase out of *AMERSHIELD* in the EMEA region.

AMERSHIELD is a two components polyurethane topcoat currently in our range. PPG's Protective and Marine Coatings business has decided to rationalize this product for complexity reduction. Suitable alternatives for this products are our SIGMADUR™ range.

Should you have questions about the most suitable replacement for *AMERSHIELD* in your particular field of application, please contact your local technical support or sales representative that will guide you towards the best solution.

The phase out of *AMERSHIELD* is targeted for end of 2021.

Yours Faithfully
