Product Rationalization – PPG SIGMAZINC™ 105

Dear Valued Customer,

In line with our effort to have a more sustainable product range in our coatings, as well as continuously optimizing our product range and offering you best product in class, we are moving forward with the deletion of SIGMAZINC™ 105 in the EMEA region.

SIGMAZINC 105 is a two-component, zinc epoxy primer. SIGMAZINC 105 will be replaced by other zinc primer in our range: PPG SIGMAZINC™ 102 HS or PPG SIGMAZINC™ 68 GP when faster drying is required.

Comparative data is presented in the table:

Drying time:	SIGMAZINC 105	SIGMAZINC 102 HS	SIGMAZINC 68 GP
Dry to touch	10 min	2 h	20 min
Dry to handle	40 min	3 h	1.5 h
Hazards identification:	SIGMAZINC 105	SIGMAZINC 102 HS	SIGMAZINC 68 GP
Base	   	  	  
Hardener	  	   	  

The phase out of SIGMAZINC 105 is targeted for November 2024.

If you would like to discuss any aspect of this deletion in more detail, do not hesitate to contact your local sales representative or technical sales support representative.

Yours Faithfully

Dagmara Kubiak
