**June 2024**

**Product Rationalization – PPG SIGMACOVER™ 522**

Dear Valued Customer,

We are writing you to advise you the phase out of SIGMACOVER™ 522 in the EMEA region.

SIGMACOVER 522 is a two-component, micaceous iron oxide-pigmented, polyamide-cured epoxy primer/sealer/coating.

The phase out of SIGMACOVER 522 is targeted for the end of 2024.

SIGMACOVER 522 will be replaced by PPG SIGMACOVER™ 280 universal epoxy anticorrosive primer, based upon pure epoxy technology.

If you would like to discuss any aspect of this deletion in more detail, do not hesitate to contact your local sales representative or technical sales support representative.

Yours Faithfully
