**September 2025**

Dear Valued Customer,

We would like to inform you about an important update regarding the PMC product range. After careful evaluation, we have decided to phase out **AQUACOVER 400** due to concerns related to its labeling. The current label has raised issues, and our AC team is working on reformulating the product to meet improved standards.

As a result, AQUACOVER 400 will be **discontinued effective November 2025** and will no longer be available in the PMC portfolio.

For our customers, we recommend transitioning to a suitable alternative from the architectural range. Your PPG representative will support you in identifying the best replacement solution.

We appreciate your understanding and continued support as we enhance our product offerings. Please do not hesitate to reach out to your PPG contact for further assistance or to discuss transition planning.

Kind regards.

A handwritten signature in black ink, appearing to read 'Tolga Korkmaz', with a stylized flourish at the end.

Tolga Korkmaz
